

Purchase Assistance Program

State Housing Initiative Partnership (SHIP) Purchase Assistance Program

Homebuyers, whose adjusted income does not exceed 120% AMI, may be eligible to receive a second mortgage loan for down payment and closing cost assistance. A first time homebuyer may apply for assistance to purchase a site-built home anywhere in the County or the two cities. Mobile homes are not eligible. The maximum purchase price allowed under this program for an existing or newly constructed home cannot exceed the guidelines set by the local housing assistance plan.

Hendry County wants you to obtain the American Dream of Homeownership. The Board of County Commissioners in partnership with the State has made funds available to help you buy a home for your family.

Contact the SHIP office today to get more information about applying for the Purchase Assistance Program.
