**Date of Meeting:** May 28, 2019

**Date Submitted:** May 21, 2019

**To:** Honorable Chairman and Members of the Board

**From:** Margaret Emblidge, AICP, Planning & Community Development Director

**Agenda Location:** Public Hearing – Adoption

**Subject:** Amendment to Hendry County Code of Ordinances – Chapter 1-53 Zoning, Specifically, Section 1-53-2.1, Establishment of Districts, Section 1-53-2.2, Land Use Classifications, Table 53-1, Table of Use Regulations, Section 1-53-3.7 Agriculture Transitional District, Creating new Section 1-533.7.1, Wheeler Estates Development Standards, and Amending Table 53-2, Table of Dimensional and Density Regulations.

---

### **Statement of Issue:**

This agenda item includes County initiated amendments to the Land Development Code to create Land Development Code regulations specific to the overall Wheeler Estates as a result of a Land Use Study funded by the Community Planning Technical Assistance Grant (“Grant”) administered through the Department of Economic Opportunity (“DEO”).

The sections in the LDC to be amended include:

- Chapter 1-53, Zoning, specifically, Section 1-53-2.1, Establishment of Districts;
- Section 1-53-2.2, Land Use Classifications; Table 53-1, Table of Use Regulations;
- Section 1-53-3.7 Agricultural Transitional District;
- Creating a New Section 1-53-3.7.1, Wheeler Estates Development Standards; and
- Table 53-2, Table of Dimensional and Density Regulations.

### **Community Outreach**

The first reading of this agenda item was held on April 23, 2019. The proposed amendment is based upon data gathered from five (5) community meetings held between September 2018 and February 2019. Additionally, the regulations were crafted based upon a community-wide survey process. The input received at the various community meetings and from the survey results were highly informative, and

generally cohesive in terms of the community's support of single-family residential, agricultural and recreational land uses that protect and enhance the rural character. Limited convenience commercial, civic and recreational uses are also generally supported by the community with careful and well-crafted limitations including enhanced design and locational standards.

The community has been notified of the public hearings and the final proposed amendments have been emailed and posted on the County website.
